

Checklist for Vaccinated Travellers

Please be informed that due to the evolving nature of the COVID-19 pandemic, the relevant authorities in Singapore may, at their own discretion, introduce new measures of requirements to safeguard public health. This may include a variation of the conditions or cancellation of the travel framework at short notice.

Please click on the underlined words for more information in their relevant fields

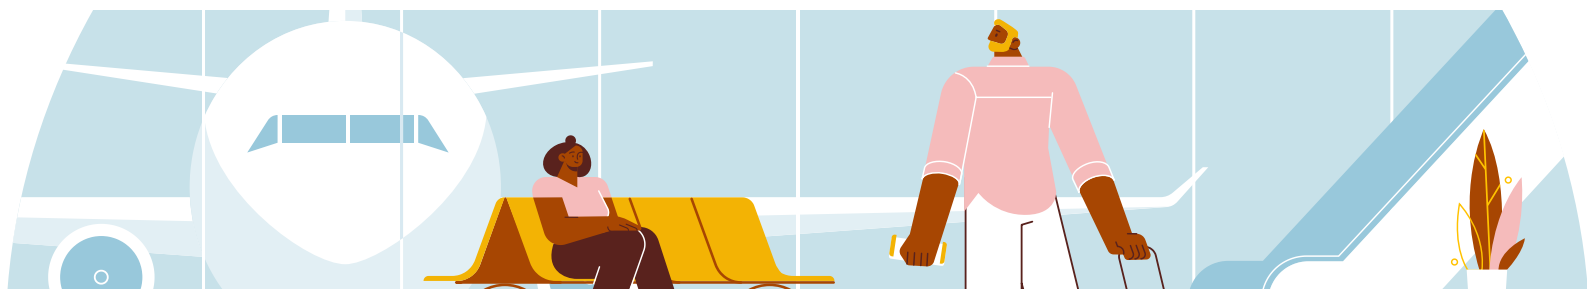

TRAVELLING TO SINGAPORE

Proof of Vaccination

Verification of the [Digitally Verifiable Vaccinated Certificate \(DVC\)](#) using the [Vaccination Check Portal \(VCP\)](#).

Additional Documents

Apply for an [Entry Visa](#) if required.

SG Arrival Card

Do defer your travels if you have any COVID-19 symptoms in the last 7 days before departure.

Symptoms include

- Fever, cough, runny nose, sore throat, loss of taste or smell

Otherwise, complete your [SG Arrival Card \(SGAC\)](#) up to 3 days before your arrival in Singapore.

An email acknowledgement will be sent to you upon the completion of your SGAC.

To Note: Passport will no longer be stamped at immigration. An e-Pass (Visit Pass) will be sent via email after clearing arrival immigration.

Travellers who did not receive their e-Pass can use this [e-Service](#).

In Singapore

If you are symptomatic on arrival, you may be directed to take a COVID-19 test: ART test cost S\$30; PCR test cost S\$138.

All travellers must comply with the latest public health measures. This includes the use of the TraceTogether mobile application.

[Visit the Ministry of Health website](#) for the latest health measure

IF YOU DO NOT MEET THE CRITERIA ABOVE
